

APPRECIATIONS

NEXT STEPS

PROJECT EQUITER RATIONALE

- There has been a significant uptake in anti-trans and anti-LGBTQ bills being introduced into state legislative sessions
 - \circ 2023 concluded with 600 anti-trans bills introduced
 - \circ We are 3.5 months into 2024 and 531 anti-trans bills have been introduced
- There are many Legislative tracking dashboards and tools available
 - Trans-specific: translegislation.com
 - Comprehensive and often cited tracker of anti and pro-LGBTQIA+
 - legislation: Erin Reed's Team
- We saw a gap in terms of holding individual legislators accountable for how they vote on these vicious anti-trans bills
 - Some state-based LGBTQIA+ groups create their own scorecards, but they are not Trans specific and can require a heavy lift for smaller orgs

Anti-trans legislation exacerbates dire circumstances for transgender individuals, leading to increased mortality rates, particularly impacting Black trans people and trans-masc individuals. We remember Alex Franco, Nex Benedict, TK Righteous Chevy Hill, and Banco Brown, emphasizing the urgent need to address systemic injustices and advocate for equality within the transgender community.
